

## Enterprise Mobility Sustainability Statement

As a multi-generational family-owned business, Enterprise Mobility\* strives to operate with future generations in mind. This forward-looking approach to managing for the long-term guides how the organization supports its customers and workforce, grows the business and gives back to local communities. This philosophy informs our sustainability program as we endeavor to continuously improve and find new, more efficient ways to integrate sustainable practices into the organization.

### We strive to advance the following principles:

- Integrate sustainable practices into business operations
- Understand and manage our environmental risks
- Encourage responsible supply chain management
- Support team member health, safety, wellness and professional development
- Act with integrity and ensure team members are treated fairly and justly

As a global mobility leader, we are positioned to play a key role in supporting a sustainable transportation future. We are working to innovate with intention to ensure equitable access to a variety of mobility solutions, steward the environment responsibly, build resilient governance practices and positively impact the communities where we live and work.
